

Tata Memorial Centre

Annual Report 2022-23

Merging Local With Global

1. Project No.902

Title: Randomized controlled trial to assess blockade of voltage gated sodium channels during surgery in operable breast cancer (VGSC study).

✓ Oral presentation by Dr. RA Badwe on Monday, September 12, 2022.

Conference: European Society of Medical Oncology (ESMO) Congress, Paris, France

Presented at TMC on September 20, 2022 by Dr. RA Badwe

2. Project No. 656

Title: A Randomized Controlled Trial of Neoadjuvant Weekly Paclitaxel versus Weekly Paclitaxel Plus Weekly Carboplatin in Women with Triple Negative Breast Cancer

Oral presentation by Dr Sudeep Gupta, on December 6, 2022

Conference: San Antonio Breast Cancer Symposium 2022,

Presented at TMC on January 5, 2023 by Dr Sudeep Gupta

3. Project No.735

Title: The role of Yoga as a complementary therapy in women undergoing treatment for breast cancer: A randomized controlled trial

Spot Light poster discussion presentation by Dr. Nita S. Nair on December 6, 2022

Conference: San Antonio Breast Cancer Symposium 2022.

Publications:

Approximately 13 publications in peer review journals of the research studies were supported through institutional grants.

Future Goals:

- Phase –III of IRB Portal for research projects life cycle
- Expansion of DSMU-subunit at ACTREC
- Implementing IRB portal for online project submission to all satellite centres of TMC
- The quality control program for research projects
- To monitor the progress of research studies supported by institutional funds.
