Homi Bhabha National Institute

Feedback from stakeholders-analysis and points for action

1. Preamble:

The Homi Bhabha National Institute (HBNI) is a unique deemed-to-be University, offering academic programs in 12 different institutions. The students of HBNI come from a variety of backgrounds, and from different states; they pursue programs as diverse as M.Sc. (at NISER and HRI), Ph.D. (at several CIs/OCCs), M.Tech. (at BARC and IGCAR) and D.M. (at TMC). Nearly 20% of the students are employees of DAE. The motivation, and the expectation of such employee-students is naturally different from students who join HBNI to acquire a degree/diploma and move further into academic / professional career. Also, many HBNI students pursue basic research in a variety of disciplines, while others pursue research programs that have a vector towards applications. While some of the students mainly use computational facilities, others use complex experimental facilities including mega facilities like nuclear reactors and accelerators. HBNI also has programs that address skill development, and programs that have direct benefit to society (e.g. Cancer research).

Considering such diversity of students and programs, as a part of its quality initiatives, it is important that HBNI obtains, on a regular basis, feedback from its various stakeholders. This will ensure that the programs, processes, infrastructure, facilities and environment in its central office as well as the CIs/OCCs are conducive to a healthy growth and also ensure that HBNI is able to meet the objectives with which it was established. With this in view, a feedback survey was conducted among a) students b) faculty c) parents and d) alumni. This report analyses the feedback and also the action taken/ proposed to be taken by HBNI based on the feedback.

II. Methodology

The stakeholders were requested to provide online feedback, based on a set of specific questions. These questions were based on the specific domains where the feedback from the stakeholder will be of high value. The stakeholders were requested to give marks ranging from 0 (strongly disagree) to 4 (strongly agree). Considering the diversity with regard to programs and processes, the stakeholders also had the option of marking “Not applicable” where necessary. The feedback was obtained online, and the data were summarized in the form of an excel sheet for discussion and analysis. The response given by all stakeholders of a particular category (student/ faculty/ alumni/ parent) was averaged. A score of 0-1 was treated as “Unsatisfactory”, 1-2 as “reasonably good, needs improvement”, 2-3 as “very good” and 3-4 as “excellent”.

III. Analysis

The results of the feedback obtained from the stakeholders are presented and analyzed in Annexures I-IV. Overall, the results indicate that all the stakeholders are generally happy with the curriculum, infrastructure and other aspects covered by the questionnaire, while there is still a good scope for improvement. In particular, the stake holders are very happy with the research infrastructure, ICT resources and the committed efforts of the faculty.

The response of HBNI to the feedback, is provided in Annexure V. The response relates to the points where the average feedback score was less than 2.8. Some of the suggestions made by the stake holders pertain to steps that need to be taken at HBNI, while others need redressal at the CI/ OCC level (e.g. Hostel and other facilities). HBNI would take necessary actions with regard to the issues in consultation with CIs/OCC, Boards of Studies and Standing Committee of Deans.
